## Education

### Bachelor of Engineering

Materials engineering and  
nanotechnology

Silpakorn University

graduated in 2025

## Language

Thai

English

## Skills

- Creative thinking
- Ability to quickly learn new things
- Good interpersonal skills
- Good time management and punctual

# JIRANUN VORAVICHA

Graduating student

## Profile

Have recently graduated from the Faculty of Engineering and Industrial Technology, majoring in Materials Engineering and Nanotechnology, Silpakorn University

## Career Objective

Aim to apply the knowledge gained during my four years of study in Materials Engineering and Nanotechnology at Silpakorn University, along with my internship experience at the National Metal and Materials Technology Center (MTEC), to bring value and benefit to your company. This opportunity will allow me to work with a company I admire, take on new challenges, and further develop my skills and experiences to grow alongside the organization

## Work Experience

April

-

June

2024

### National Metal and Materials Technology Center (MTEC)

Research Assistant Intern

- Responsible for assisting researchers in managing the laboratory.
- Conducted studies to identify optimal conditions for thin film deposition.
- Conducted tests on coated samples to check for defects, in order to identify improvements for future coating processes.

## Additional Activities

2024

### Departmental bonding activities

Senior group

- Responsible for assisting in maintaining the smooth operation and organization of events.

2023

### MSE camp #25

Maintenance Department

- Responsible for leading juniors in the department to participate in various activity stations.
